Large Risk Alternative Rating Option (NCCI's) - Rule Filing
Our Filing Number 07-WC-022

We are filing the attached amended rule page to reflect the Large Risk Alternative Rating Option of the NCCI Retrospective Rating Plan which allows premium factors to be negotiated between carrier and insured.

As a result, the policy premium based on the filed rates may not be the policy premium after the application of the Large Risk Alternative Rating Option. In the foreign terrorism and domestic terrorism rules on the our attached rule pages, we have placed an asterisk next to the affected companies and also placed an appropriate comment at the bottom of the page. This amendment to the rule page, clarifies that the policy premium in these companies for these charges may not be the same as the rated premium.

We wish to implement this revision with all new and renewal policies effective on or after March 1, 2007 or upon your approval.

Very truly yours,

Joseph W. Binkowski
